The Youth Impacts MUN will bring together over 100 students and professionals from around the world to engage in dynamic debates on critical global challenges. This summit offers delegates the opportunity to explore pressing issues faced by the United Nations today while emphasizing the importance of international peace and security.

Youth Impacts MUN is supported by an International Board comprising influential personalities committed to driving positive change. Led by a passionate secretariat of experienced officers and talented young minds, the conference collaborates with NGOs worldwide to empower students through activities that strengthen leadership, knowledge, and consensus-building. Youth Impacts MUN creates and nurtures Agents of Change (www.youthimpacts.com).

Being selected to attend this prestigious conference is a great honor, as only a limited number of applicants from around the world are accepted.

We kindly request that this student/participant be granted a visa in time to attend the conference in New York
